Subject: Sandy City Curbside Clean-up

Dear Councilwoman Sharkey,

It has come to my attention this evening that Mayor Blackburn plans eliminate the Spring and Fall bulk waste pick-up, I am a long-time Sandy resident and tax payer and find this idea repugnant. Eliminating this service leads me to believe that our Mayor is out of touch with his constituents and lacks understanding of how this service benefits the communities in Sandy and the people that live in them. It helps keep our communities beautiful by providing residents with an opportunity to have their yard waste removed during Spring and Fall clean-up without multiple and costly trips to a land fill. It also brings people together as neighbors reach out and serve one another as they comes together to get yards cleaned up and beautified for the bulk pick up.

Eliminating the bulk pick-up would be a huge diservice to every resident of Sandy, especially those who don't have the financial means or access to a truck needed to make multiple trips to a land fill.

As our elected Councilwoman, please make our voices heard. We want and need this service to continue.

Sincerely,
Lisa Schieving
