Subject: RE: Spring and Fall Pick-ups

Hi Cyndi,
After reviewing the Dumpster Program, we still feel that the Curb Collection is still a better option. Reasons are as follows:

1) It actually forces the whole neighborhood to clean up as there is a specific date that you have to have your waste product on the curb ready for pick-up.
2) The scavengers come through and take anything that is recyclable. They are going to do this whether the materials are on the curb or in a dumpster. Do you really want to have people or kids crawling around in City owned dumpsters with the possibility of getting injured and then having to call in the First Responders? Seems like a lot of liability.
3) 20 dumpsters for the whole city is not many. Especially on a first come first serve basis. It will limit the home owners to just one clean-up per year. We really need 2. It is amazing how much junk you acquire throughout the year.
4) Many homeowners will probably not even take advantage of it due to the fact that they do not have a lot of waste materials. They will just let it pile up in their backyards thinking that they will get rid of it at some time. That will bring in mice, rats, snakes and possibly skunks. I have seen this in neighborhoods and even our backyard when we moved in here 11 years ago.
5) The one (only one) good thing I see about the dumpsters is they will now take dirt and building materials.

By the way, why didn't the mayor notify the Sandy Residents of this? Didn't even see anything about it in his Sandy flyer. Doesn't seem like he is much for the people. Please don't hesitate to contact me if you have any questions or comments. We appreciate you getting involved in this and trying to do what is best for the residents of Sandy.

Subject: Spring and Fall Pick-ups

Dear Cyndi,

We understand that the Mayor of Sandy wants to take away the Spring and Fall Pick-ups. We are completely against this as it has afforded us to keep our city clean and well maintained. We have been residents of Sandy for over 20 years and always loved how clean it was and what a great idea it is to have the Sandy Pick-up. Please let the mayor know that we, and many of our neighbors, are disgusted with his decision and do not feel it is in the best interests of the City of Sandy. We knew voting for you for city council was the right way to go. Voting for the mayor, not so much.

Best Regards,

George & Kathy Stone
