Subject: Revised: Curbside VS Dumpster

Seriously Mayor Bradbury!
I really don't know who you are nor have I EVER had to email or contact the Mayors office in the 28 years my husband and I have lived in Sandy. Do you know what brings people to live in Sandy??? It's called beautification. Do you understand what this means? We all take the time spring and fall to clean up our home and yards. Most people could probably careless but as they see their neighbors outside sprucing up their property they follow suite. We need the curbside service. Sandy is an older community in Utah. Please understand one thing. **My husband and I have recently become disabled (I just had a back fusion and my husband just 3 days ago received an emergency pacemaker. Do yo think we will be able to get our trash in the dumpster? Probably not. Sandy his lots of older residents in the same situation as us**. Please reconsider curb side over dumpster.
