Subject: Bulk Waste complaint

Cindy, I would like Sandy City to reverse the recent decision to go to a dumpster program. We live in a circle and there is no way this will work as access is limited as it is.

Additionally, trying to schedule pickups and deliveries is a nightmare as we have had issues with a similar program in the Holladay area.

Please let the Mayor know his track record on making good decisions regarding the citizenry and public infrastructure and utility has been marginal at best and this resident would like to keep the current Sandy City pickup in place.

Sincerely,

Scott Cowan
