Subject: Bulk cleanup

Dear Ms. Sharkey,
I am a sandy resident (84094) and have heard about some changes to the bulk cleanup program. I would like to voice my concerns about the new program. I would prefer to keep the program as is rather than worrying about coordinating and ordering dumpsters for the neighborhood. As a single, full time mother, i have loved the convenience of the bulk cleanup program and not having large dumpsters in the neighborhood. I have also liked not having to hoist large items myself into a dumpster. Additionally, being responsible for the dumpster, if I order it for the neighborhood, makes it hard to know what everyone is disposing of and if they are being responsible. I would love to keep the program as is. Thank you!

Sharifa A.
