Thank you Cyndi for responding to my email
Yes, you may include my email in the packet. This is a perk I have really enjoyed in our neighborhood especially because the Saturday before the clean up several of our neighbors get together to help each other get items out of their house/yard for the clean and it's brought out neighborhood mite unified.
You can also include this email

Thanks again,
Jami Argyle

Subject: Fall and spring clean up

Cyndi,
I am very disappointed to hear the mayor is planning to end the bulk cleanup. I believe this type of cleanup has allowed Sandy citizens to clean up their yards and help them to keep their yards free from debris. I have read the new program but I don't believe it will achieve the same results as the current program. Please encourage the mayor to change his mind and keep the previous program.

Thank you,
Jami Argyle
