Absolutely, you may share my previous email as well as this concern... I think Sandy City needs to be aware people may take advantage of the allotted "free" dumpsters for remodel demolition and larger projects which would affect the availability of the limited number of dumpsters for annual cleanups.

Thank you,
Shelby Hales

Subject: Curbside pickup

Hey Cyndi and City Council,

We have loved the fall and spring curbside pickup and understand that may be going away. When we joined Sandy City a few years ago, that was a huge benefit we were looking forward to having.

Change is hard for everyone. If this change moves forward, would the dumpsters be available Year-round or just seasonally? Do you anticipate a long waiting list for dumpsters?

Thank you for your attention to the matter,
Jared and Shelby Hales
