Yes, please include my email in this! I have always loved that Sandy has asked for the opinions from its resident before making major changes like these so I am very shocked that this process wasn't followed and I hope it isn't a sign of things to come for our wonderful city.

Thanks again for collecting these!
Alysha

> As a Sandy resident I really think the old bulk pickup program is much better then this new one. I participate in all the surveys that are sent out by the Sandy app and this was never sent around for feedback and this is very confusing to me since the city regularly requests our feedback on major changes like this. I am very disappointed that we weren't consulted. Please deliver our concerns to the mayor on this topic and hopefully it is not to late to change things.
