Subject: Re: Bulk waste

Thanks. I have read the article. It is full of loopholes. In short,a very stupid idea. I will never reserve a dumpster to be parked in,on or near my property let alone to be responsible for what my neighbors put in it.

Also, I did not mind those so called scavengers hauling away recyceable items. Good for them! In fact I would track them down and offer items.

Whoever came up with this idea is frankly an idiot!

What about older people or handicapped persons? Have you ever tried to lift stuff into a 10 foot tall dumpster?

The city had front loaders,etc.

This mayor has got to go!

Subject: Bulk waste

I just heard thru the grapevine Sandy is discontinuing bulk waste pickup. I'm concerned. I hope it is not true. I really appreciate it. Please send me more info on this change.
Thanks,

Lewis C. Olson
