Subject: Sandy Bulk Pickup

Seriously Mayor Bradbury!
I really don't know who you are nor have I EVER had to email or contact the Mayors office in the 28 years my husband and I have lived in Sandy. Do you know what brings people to live in Sandy??? It's called beautification. Do you understand what this means? Without our bulk curb pickup our community will look like hell. We all take the time spring and fall to clean up our home and yards. Most people could probably careless but as they see their neighbors outside sprucing up their property they follow suite. We need this service. Many people don't have a truck to haul away their trash. Maybe you should talk to the residents first. Why would you even consider taking this away?
