Of course you can. A huge dumpster in the gutter will *really* clog it up. Little children will be playing on and near these monstrosities, darting around them and into the street. The mayor must have not considered the "child safety" factor in proposing this program.

What about senior citizens? We can hardly lift things over our heads, let alone up four feet and into a dumpster. Dragging tree trimmings, and bags to the edge of the lawn is easy, and the city clean-up crews are very efficient in removing it on the appointed day.

Look, the city clean-up program is perfect the way it is. Citizens see their tax dollars working in their favor. we like what we have. Don't change it!

Mr. Mayor,

Please do not discontinue the city spring and fall trash pickup. We love this program as it keeps the city clean.

Thanks,
JW McKea
