Paul,
Thank you for reaching out with your concerns. This was brought up at a City Council Meeting on January 21st. Unfortunately, it was not properly placed on the agenda, which eliminated the opportunity for City Council members to discuss this with administration. Because of this oversight, it was not noticed to the public so residents were not able to comment on the proposal either. I am attaching a link that has more information about this change. If you would like to speak at the Council Meeting this Tuesday, February 4th, I would suggest being to the meeting at 5:15. It is item 4 and will be heard early into the session. We will be taking public comment this Tuesday. Please let me know if you would like for me to have your email added to the public record.

Subject: Fall and Spring Pickup

Alison, I recently became aware that the Mayor is doing away with the fall and spring pickup service. I am appalled that this is being done without any communication or input from our city residents. His motto seems to be. "Raise taxes and cut services." Please do not allow this valuable service to be taken from our community.

Sincerely,
Paul Hansen
