Subject: Dumpsters

I don't think the dumpsters are a good idea. being a small female, I don't see how I can lift anything into them. I can't even lift a bag a leaves into a dumpster. My parents in CWH have the same issue. I know there are doors on them but it's amazing how fast they fill up and overflow. Dumb that the person "requesting" is responsible for what goes in them too. You would be surprised that people who don't live in the area illegally dump stuff in them. I will still drag branches and other debris into the street while I wait for a dumpster because weather is unpredictable and I got to clear my yard debris in good weather. Anything heavy I can't lift up will also go to the curb in hopes a "poacher" takes it! I never understood the big deal of people taking what's on the curb anyway. They are either repurposing, reusing or recycling rather than going straight to the dump!

Thanks for listening.

Amelia Martinez, Sandy resident for 18 years.
