Subject: Bulk dumps

Cyndi,

The proposed changes in Sandy's bulk pickup program will result in too many people keeping (what should be discarded) on their property resulting in junkyard backyards. And, unfortunately, a small number of people will discard what should properly go to the dump in empty lots & roadsides resulting in roadside bulk dumps.

These proposed changes are a step backwards in keeping our city NOT looking like a junkyard. The easier a program is to follow (i.e., our current program) the more likely it is to be used.

Thank you.
