I am one of your constituents who lives in the subdivision south of the property formerly leased by Reams on 700 East. I am concerned about the proposed zoning change for the property from commercial to PUD 12, which would have a significant impact on our neighborhood.

I am concerned about the increased traffic that would be generated by so many units in such a small space, the potential decrease in our property values, and the possible increase in crime that often comes with high-density housing. I would appreciate it if you would carefully consider the impact such a zoning change would have on our neighborhood and the other neighborhoods surrounding the property in question.

Thank you for the time and effort you spend studying the issues that affect the residents of Sandy and making wise decisions that are in the best interests of those of us who live and work here.
