Absolutely! Thank you.

I understand the desire to move toward dumpsters instead of placing items on the curb. My request would be to maintain a schedule and have the city place dumpsters one neighborhood at a time. Another request is to give residents two or three days to fill.

This would give everyone equal opportunity. (I worry that a first come, first serve type of system would leave the majority without an opportunity to partake.)

It also eliminates the trash sitting on the curb for weeks on end, which I know can happen.

Thank you for listening!
Christy

Subject: Curbside Cleanup

Dear Ms. Sharkey,
It has recently come to my attention that Sandy City wants to stop their curbside cleanup program. I think this is a mistake and would like to encourage a reversal of this decision.

It is a wonderful way for residents to maintain cleanliness and improved curb appeal as well as reducing clutter inside homes.

In addition, many residents take this opportunity to trim their trees of dead limbs, which could cause damage during wind storms. I fear that without the incentive of the cleanup, many of these maintenance issues will be neglected.

Please let me know if there is anything I can do or anyone I can speak to in an effort to keep the curb side tradition!

Thank you,

Christy Engel
