Subject: Dumpster clean up

We would appreciate the council's help in considering feedback from concerned citizens about the mayor's decision to limit and change the spring and fall clean up services. One of the reasons we were positive about incorporating with Sandy city was the policy of spring and fall clean up. Our neighbors totally fill and over flow the dumpsters which shows there is a need and the appearance of the neighborhood benefits from the yard trimmings and the trash removal. This is an example of where the city supports the residents. Please help us by supporting these services.
Thank you for your help.
