Subject: Bulk Trash Pickup

Hello,

We moved to Sandy in May 2019. The fall pickup was amazing.

In addition to 10 bags of leaves, we were able to trim a large tree and set the branches at the curb.

We had planned to rip out a back patio in coordinating with the Spring pick up.

We do not own a pickup truck and would have no other way to clean up after home and property improvements without this pickup service.

The bulk pickup encourages residents to make improvements to their property both inside and out twice a year.
