You certainly have my permission to forward this email to the Council Director.

Unfortunately, I have a prior commitment for Tuesday night.

Thanks for your efforts.

Michael,
Thank you for your email and comments. May I forward this email to the Council Director so that it may be entered into public comment? You have brought up some great points! This is agenda item 4 and will be discussed early in the evening on Tuesday, February 4th. If you are planning on attending, you may speak to the Council and Mayor during the public comment time. Please let me know if you have any further question or concerns.

Thank you,
Alison Stroud

Subject: Bulk Waste

Dear Ms. Stroud

I have just been informed there will be no Spring or Fall bulk waste pickup that has been available in past years. Curb-side pickup has been much appreciated and a real plus for Sandy residence. I understand that the trash trollies will be used instead (by reservation). I am dismayed by what seems to be a reduction in the benefits offered to Sandy citizens and would like you to know that I would appreciate anything you can do to see that the curb-side service is continued.

We have always complied fully with the time schedule and types of materials we could place at curb side. I am aware that some Sandy citizens have abused this privilege by placing items too early and by including items not approved for pickup. These abuses could be handled in a better way than making the change to the trash trollies. They should simply be fined or charged the going rate for the dump fees and transportation.

The immediate problem for us is that we live on a cul-de-sac. There is no place we can place a trash trolley without blocking driveways and mail boxes. Also, by eliminating the bulk waste pickup, Sandy can expect to have more leaves and Fall trash in the storm drains. Also, by scheduling two pickups, people get busy cleaning up their yards at least twice a year. Without this benefit, people are likely to allow debris to accumulate in their yards.

Please do what you can to retain the benefit of curb-side trash pickup

Sincerely:

Michael K. McCarter
