Subject: NO to dumpsters! Proposed sandy cleanup change
Hello,

As a sandy resident I would be so disappointed if we went to dumpsters vs the bi-annual clean up. Please don't do that!

There are several reasons:

1- dumpsters fill up faster than they should and would be more likely to be abused than the curbside clean up is. We see what's on the curb. Anyone can stop by in the middle of the night and throw stuff in a dumpster (or throwing illegal stuff in the dumpsters).

2- those people that don't (or can't) clean up their property will drag down our home values by becoming more run down. It's easy to get stuff to the curb twice a year. Not everyone can lift big or heavy things into a dumpster. Those of us who HELP those neighbors need to be able to do so quickly and efficiently (taking to the curb). We do this every spring and fall to help our neighbors and thus protecting the values of our own homes.

3- Having random dumpsters show up throughout the neighborhood for months at a time is MUCH worse than having a week during the spring and fall with stuff on the curb. Gross! We have to live here! Nobody wants to see that on a regular basis!

4- PLEASE DO NOT DISCONTINUE THE CURB SIDE CLEAN UP. Look at the other cities that already use it and compare. We don't want Sandy to be the next Taylorsville or Midvale. NO TO DUMPSTERS!!!!

Thank you,

Leanne Boudreaux, Sandy City resident for 19 years.
