Subject: Sandy City twice yearly waste pick up

Ms Sharkey,We are adamantly opposed to the abolition of the twice yearly waste pick up for Sandy City. This procedure is one of the reasons that we decided to stay in Sandy. Our family has lived here since 1986. This is one of the reasons we pay taxes. There are many less important ways to economize here in Sandy. Please help to stop this. My only other alternative is to chop the waste and tediously leave it in our two garbage cans over a period of several months. We consider this waste pick up to be an essential service for the citizens of Sandy City.
