Dear Council Members,

I wanted to briefly weigh-in regarding the rezone request on 11400 S as a candidate for Sandy City Council District 4 since they situated within District 4 boundaries.

I truly believe Sandy is unique and has something for everyone, and it's to our benefit to maintain a balance in housing options, including those zoned agricultural.

Because the parcels in question currently abut properties with AG zoning on two of the three sides (north, west, and east), I agree with some of the residents who are concerned that a rezone to quarter acre lots without the AG designation are less consistent with the majority of the properties immediately adjacent. Approving this particular request would effectively create a pocket neighborhood where one doesn't currently exist. I'm don't believe what was proposed is the right solution for these parcels given that information. For those reasons I am opposed to the requested rezone to R-1-10.

Thank you,

Brooke D'Sousa
Sandy City Council District 4 Candidate
