Absolutely. Include my email. This mayor wasn't elected to take apart the good things we have. It was to find creative ways to make things better. This is NOT one of them. The mayor needs to realize that this is something where input from the public needs to be solicited. Being unilateral is not a good consensus builder when we are trying to be a model community.

The bulk waste program (not ordering a dumpster) is something that has helped Sandy stay clean, well-kept and generates a true sense of community. The feeling of community is one of the things that keeps many us in Sandy. Our neighborhood has set aside a Saturday each year, just before the pick-up, for a big neighborhood cleanup where we help the aged, infirm, overwhelmed and other that just need a helping hand to clean up yards, brush and anything that is needed. We have done this for over 20 years. Then after 2-3 hours of 50-100 people working together, we gather in a cul-de-sac for a big neighborhood breakfast.

Cyndi, please, don't let this happen.

Ole Smith

Fall and spring pick up are a much needed service. Especially as our population ages. Neighbors helping neighbors keep our neighborhood clean. I am very concerned about this change.
