Subject: Recommendation for Re-appointment to the Planning Commission

Dear City Council Members,

I am pleased to support Mayor Zoltanski in recommending Ron Mortimer for re-appointment to the Sandy City Planning Commission. With a strong background in engineering, Ron Mortimer has brought valuable technical expertise that has enhanced the commission's ability to evaluate infrastructure, transportation, and land-use proposals with precision and foresight.

Ron Mortimer's experience in the engineering field, equips him to assess the feasibility and long-term sustainability of development projects, ensuring alignment with city goals for safety, efficiency, and community growth. His collaborative approach and problem-solving skills have contributed to a balanced, well-informed approach to discussion making.

Re-appointing Ron Mortimer will continue to strengthen the commission's capacity to integrate technical insight with community priorities, ultimately supporting responsible and forward-thinking urban planning. I respectfully recommend that Ron Mortimer be re-appointed to the Sandy City Planning Commission.

Sincerely,

James L. Sorensen
Community Development Director
