Subject: [EXTERNAL] Oppose Ivory High Density

Understand there is an amendment vote that will close loopholes preventing Ivory from building high density / mixed housing east of wasatch boulevard. I live at 107th just west of that location, and walk frequently in the evening past those lots. Wasatch boulevard is already busy with many fast cars passing by. We don't need high density in this location. Please vote to mace these changes. 1/2 acre lots should be the minimum. Thanks for your support.

Brian
