I'm vehemently opposed in allowing anyone to place signs on our fence.
The homeowner or resident should be asked before anyone places a sign on their property and the homeowner should be the one who either allows or rejects.

I understand that the city council of Sandy will be voting to allow large banner type signs to be placed on fences in residential neighborhoods for the purpose of advertising those running for political office. I oppose this idea as it will allow residential areas to possibly look like a business district. I couldn't imagine all of Wasatch drive looking like an interstate with every fence with a large banner sign on it for months at a time. In addition, if you allow signs for the purpose of elections, why not allow individuals to advertise for their kids lawn moving service, or babysitting services? I believe it will set a dangerous precedent.

I also wanted to know if Sandy has changed the ranked choice voting back to standard voting, I am opposed to ranked choice voting and chose to vote for those individuals who said they would vote against using that type of voting again in our wonderful city.

Thank you for your time and consideration.

Please vote no. A city as beautiful as ours should not allow the aesthetics to be riddled with such large obnoxious political ads.

This only benefits those who are running for office. The citizens are already bombarded enough, each time political season rolls around.

Let's look like Sandy and not West Valley.

It's clear that your fears are really potential candidate endorsement. By opposing the code change, this would benefit incumbents by limiting name recognition for new candidates contrary to what Brooke states.

I am begging the city council to be sensible and vote NO to signs of fences. I don't care if it's a political sign or a be kind sign. I don't care if it's 8 inches by 10 inches or 8 feet by 4 feet. Keep it in your yard and figure out how you are going to mow around it if it's that important to you. This will just junk up our neighborhoods and cause me to reconsider my decision to raise my family in Sandy. I was under the impression it was a well run city. Maybe it was once upon a time, but if this gets approved it will show otherwise. I'm glad I was alerted to this nonsense so I could weigh in.

Dear City Council,

Please support the fence signage changes as proposed. Despite Brooke D'Souza's claims of vulgarity, I have never seen anything like this on their private fence. If someone wanted to put a vulgar sign in their yard, you couldn't prevent that either. This is private property. I didn't buy into an HOA with rules like this. I am not a past candidate. I think people ought to have the right to put signs up on their own fences. I support my neighbor who has a sign on her fence for a children's art studio on 1700 East. Please do not meddle in private property affairs and stop gaslighting people that this is a problem when it is clearly not.

Political signs are a thing of the past: most people are influenced in elections by word of mouth, townhall-type meetings, and actually interacting personally with the candidates running for office. We need more of the face-to-face, not more garbage that most likely won't get cleaned up in a timely manner after elections. Allowing large signs in residential areas will detract from the beauty of our neighborhoods as well as pose visibility issues that could be dangerous to drivers and pedestrians alike. We need FEWER signs, not more of them, and certainly not larger!

I was made aware that the Sandy City Council was discussing the allowance of new Political Signs in Neighborhoods.

I am against this action and I would recommend that the council vote against this happening.

There are too many problems with this action. Some questions come to mind if there are problems with signs being put up. They are:

1. How long will a sign be allowed to be displayed in neighborhoods?
2. When will it be required to remove these signs?
3. How many days can go by after notice is made to remove a sign and actually have it removed?
4. Who is authorized to remove a sign if it has be asked to be removed?
- 5 What is the procedure to remove profane or vulgar signs?
6. What are the penalties and removal time if a profane or vulgar sign is put up?
7. Who can judge if a sign is profane or vulgar?
8. What are the penalties and removal time if a misleading sign is put up?
9. Who can judge if a sign is misleading?
10. What are the penalties and removal time if a slanderous sign is put up?
11. Who can judge if a slanderous sign is put up?
12. What are the procedures to remove a sign?

There are many items to consider about allowing signs to be put up in neighborhoods than just simply allowing them. The big question is how does one get a sign removed if it has problems as discussed above.

Please vote "NO" on allowing signs to be put up in neighborhoods!

I would just like to say that I'm against fence signs. I don't care how people vote-it's none of my business. I don't need others shoving their political choices/opinions in my face.

Please do not approve this. Other signs not on fences are sufficient. Feel they would be an eye sore!! Thank you!!!

Allowing 8' X 4' signs on fences??? Sandy City would become a polluted city of mini billboards with divisive messages.

This is supposed to be a beautiful, clean, upscale residential community...not an extension of hate-filled social media posted around the city.

Please don't allow this.
