Of course, I am good with public record. I have plenty to hide, but we need to make changes.

Hoping to speak on Tuesday.
Thank you again for your time.
Maryjo

Maryjo,
Thank you for reaching out and thank you for voting for me!! I am hopeful that the remaining Council Members will see that 2 dogs is very limiting as well. 20 years ago, shortly after buying my home here in Sandy, my husband and I decided that our infant son also needed a dog. We went from a family of 2 dogs to a family of 3 with little thought of the Animal Code. Two of the 3 dogs were beagles and seemed to find their way out of our secure, and fenced

backyard. Once the City was made aware that we had 3 dogs, I was required to surrender the youngest pup. Fortunately, our neighbor had agreed to adopt Pork Chop, but it broke my heart. I am hopeful that this old code will be changed and that families willing to offer a dog a home are not limited to 2 dogs. Please let me know if I can add your email to the public record, or if you would like to speak at our meeting in person, I would encourage you to do so.

Thank you,
Alison Stroud

I just want to say Thank you on your Proposal to change the number of allowed dogs in our community. I have been waiting for this for years! I am hoping that this will work and that we can finally get it in the books that we can have more than 2 dogs. I volunteer for an animal rescue group and would love to be able to be in compliance! Ha ha..
Just want you to know that I support on what you are doing and of course I voted for you and love that you are working towards something that I believe in.
Thank you for your time.
