Redistricting Poll

Three Questions:

1. Are you a Sandy resident?
 2. Which district do you live in?
 3. Which of the three alternative district maps would you choose for Sandy City?
- Ran from April 13th to April 27th
 - 1,120 responses

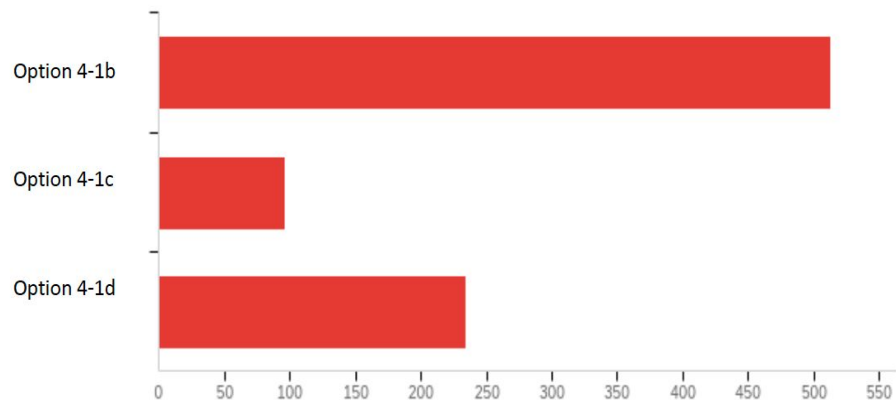

Q2: Which district do you live in?

Q7 - We are interested to know in which City Council district you reside. The map below represents the current four Sandy City Council districts. Using the map below, please select the district (1, 2, 3, 4) where you live.

Q3: Which map would you choose for Sandy City?

Q4 - For reference on how the districts are proposed to change, see the current Sandy district map below. The city council must redraw these boundaries in order to rebalance the populations so each district is substantially equal. Please review the three alternative district maps below. Which map would you choose as the new Sandy City district map?
