Staff Report Memorandum September 7, 2023

To: Planning Commission
From: Community Development Department
Subject: Sandy Station Block 59 Subdivision
(Preliminary Subdivision Review)
8810 S 90 E
(Community #4, Historic Sandy)

SUB09232022-006408
R-1-7.5(HS)
.23 Acres
2 Lots

Public Meeting Notice: This item has been noticed to property owners within 500 feet of the subject area, on public websites, and a sign posted on site.

Request

The applicant, Mark Stephenson with Red Mountain Builders (representing the property owners Joseph Llavina and Jocelyn Camargo), is requesting preliminary review for a two-lot subdivision. He is also requesting the subdivision be reviewed under the Historic Sandy Development Overlay Zone (HSD).

Background

The subject property is approximately .23 acres and is located within the R-1-7.5(HS) Zone. It is also located within the Tier 1 portion of Historic Sandy. The existing home fronts along 90 East. All surrounding properties are in the same zoning district with single family homes on similarly sized lots.

Public Notice and Outreach

Notices of the Planning Commission meeting were mailed to property owners within a 500-foot radius of the subject parcel and public notice sign was posted to the property. A neighborhood meeting was held on November 2, 2022. No concerns were noted by community members in attendance.

COMMUNITY DEVELOPMENT DEPARTMENT

Analysis

The R-1-7.5(HS) Zone allows for single-family housing on lots with a minimum size of 7,500 square feet. The applicant is requesting that the HSD Overlay Zone be applied to this request which will allow for the creation of lots as small as 5,000 square feet if the development also complies with the additional standards of the Overlay Zone.

Historic Sandy Development Overlay Zone

The purpose of the HSD Overlay Zone is to encourage development and investment in the Historic Sandy Area by reducing the required minimum size and frontage requirements for a lot, as well as providing a reduction in required setbacks. In exchange for this flexibility, the Overlay details architectural and landscape requirements meant to promote development that complements and enhances the historic nature of the district. The specific requirements of lots within the Tier 1 area of the HSD Overlay Zone are as follows:

- Roofs with a 5:12 pitch or greater.
- Gable ends facing streets and alleys.
- Covered porches across 50% or more of the front elevation.
- Porches connected directly to sidewalks.
- Windows and doors occupy at least 25% of the front elevation.
- Dwelling Footprints not to occupy more than 50 percent of the lot.
- Primary Entrances that face a public street.
- Predominantly one exterior material of brick, stone, or masonry. Limited amounts of stucco may be considered.
- No vinyl or aluminum siding is allowed.
- Detached garages or recessed from the front façade by at least 10 feet.
- Compatible architectural design with surrounding area (Colonial, Bungalow, and Craftsman)

These design requirements are used during the building permit review process to ensure that homes are more compatible with historic structures in the area. A notice to purchasers will be added to the subdivision plat that will inform potential buyers of these lots that they were developed under the overlay. The notice is meant to inform purchasing parties of the additional design requirements that will be used during the review of any future building permit(s).

An additional requirement of the HSD Overlay Zone is that development plans must be presented before the Historic Preservation Committee for review. This review took place on August 23, 2023. The Committee recommended approval of the proposal based upon the guidelines while making the following suggestions:

- That the siding on the front elevation be run horizontally instead of running both vertically and horizontally.
- That the front gable end be adorned by either a change in material or the addition of a vent or faux window.
- That the front porch eaves be extended to cover and extend beyond the edge of the façade.

The Planning Commission must review and approve of the proposed building elevations which are found in Exhibit B.

Staff Concerns

Staff has reviewed the proposal for compliance with the underlying zoning as well as the HSD Overlay requirements and has no concerns about the proposal.

Recommendation

Staff recommends that the Planning Commission determine Preliminary Subdivision review is complete for the Sandy Station Block 59 Subdivision located at 8810 South 90 East based upon the following findings and subject to the following conditions:

Findings:

1. That the proposed subdivision is an infill development that is supported in the Historic Sandy Neighborhood Plan.
2. That the proposed lot configuration is an efficient use of the land.
3. That the proposed lot sizes and frontages conform to the requirements of the HSD Overlay Zone.
4. That the various City Departments and Divisions have preliminarily approved the proposed subdivision plat.

Conditions:

1. That the applicant complies with each department's comments and redlines throughout the final review process and that all issues be resolved before the subdivision can be recorded.
2. That all City provisions, codes, and ordinances, including the standards of the HSD Overlay Zone are adhered to during the review, construction, and operations process of this project. This includes all architectural requirements of the HSD Overlay Zone.
3. That landscaping be installed in compliance with the requirements of the HSD Overlay Zone, including two-inch caliper street trees and one evergreen tree (six foot minimum) be installed on each lot at least four feet behind the sidewalk. A variety of shrubs and flower beds are also to be required in front of each home.
4. That the building elevations for the new structures proposed by the applicant be approved as shown in the application materials.
5. That the existing home have a new detached garage built within six months of the recordation of the subdivision or prior to the sale of the lot to another owner to ensure that this lot remains in a legal conforming condition.
