Subject: Neighborhood Clean Up Program

To Whom It May Concern,

I am writing in regards to the Neighborhood clean up. We need to keep this program going in order to help keep our neighborhoods looking nice and decent. A lot of us are not in the position financially to pay for someone to come out and drop a dumpster off or a private company to take away junk, garbage or clutter.

This program has been useful for everyone and has allowed us to take more pride in our properties and homes.

Where the focus really needs to be is the speeding issue on 300 E from 9000 S to 9400 S. All of us who live on 300 E have been complaining about this for years and we continue to be told that there is not an issue. I have almost been rear ended by drivers while turning into my driveway. I have had people yell, honk, and tailgate me because I refuse to speed in a residential area. I am a dispatcher who proudly serves Sandy City. And when I see this going on and nothing is being done, it is very concerning to me.

Speed boards have been placed on 300 E on the east and west side of the street but it has not deterred anyone. The worst offenders is the school buses from Canyon School District and the parents who drop or pick up their kids.

I am a parent to a three year old daughter and will not let her play in our yard because of the amount of speeders on the street.

If we could place more focus on this issue and help get this area under control, that would be greatly appreciated by all of us who do not want our kids in danger of getting hit or higher chances of auto accidents due to reckless driving.

Thank you for your time.
