

Google Fiber

Google Fiber is constructing in your neighborhood!

Construction crews work hard to move quickly, reduce disruption, and restore roads and property.

What to expect during construction?

Normal construction is expected to occur between 8:00 a.m. and 7:00 p.m. daily.

In most cases, block by block construction is completed in less than one week upon entering your neighborhood. However, sometimes construction will take longer, depending on a variety of factors.

Notifications, such as a door hanger at your homes and “No Parking” signs/cones are in place at least two (2) days before work begins. Signs will be removed within one (1) day of completing restoration work efforts.

Some homes will see an inground vault placed in the softscape of the City’s right -of-way. These vaults are critical to bring fiber to your and your neighbor’s homes. All vault placements include restoration of the ground adjacent.

Is there a Construction Hotline?

The Google Fiber construction hotline is open 24 hours a day, 7 days a week. Please call 1-877-454-6959.

How can I sign up for Google Fiber service?

Sign up for updates about when your neighborhood is ready for Google Fiber service at fiber.google.com.

Para español, por favor llama al (877) 454 - 6959
