
Dear Brooke,

Professional firefighters of Sandy Local 3162 would like to formally thank you for your hard work and dedication as a city council member. We are grateful for the decisions that were made so that we can recruit and retain firefighters. We know that you are dedicated to helping the city continue to grow in the right ways and we appreciate that. As the city grows, our department must grow with it. Sandy Fire has less employees today than in 2002 when we were running about one thousand less calls per year.

Chief Cline's request for more full-time staffing is important for the safety of the community and our employees. Chief has included us in all aspects of his plan and continues to work diligently to keep us safe. He and Chief McConagie emphasize the importance of responding promptly, safely, and efficiently while treating our citizens with the upmost respect. At times, it is difficult to meet or exceed these expectations when we are doing more with less. We strive to be the best fire department in the state, and we are so grateful for the support that you have shown!

Sincerely,

Chris Welch

Dear Zach,

Professional firefighters of Sandy Local 3162 would like to formally thank you for your hard work and dedication as a city council member. We are grateful for the decisions that were made so that we can recruit and retain firefighters. We strive to provide the highest level of care to the citizens and visitors to our community.

We want you to know that we support Chief Cline's request for more full-time staffing and feel that it is important for the safety of the community as well as our employees. Our current staffing levels do not meet NFPA 1710 unless we utilize every engine and ambulance in the city on a house fire. As you know, if a call comes in after a fire dispatch, we must call in another city to cover our calls. We have no idea how our citizens are being treated by another agency and can only hope for the best. Chief Cline has included us in all aspects of his plan and continues to expand our department in the right ways. He and Chief McConagie emphasize the importance of responding promptly, safely, and efficiently while treating our citizens with the upmost respect. We support his request and hope that you will too.

Sincerely,
