Memorandum

July 1, 2025

To: City Council

CC: Monica Zoltanski - Mayor
Shane Pace – Chief Administrative Officer

From: Justin Sorenson – City Council Assistant Director

Subject: Analysis of Police Calls Near Alcohol-Serving Establishments (12-Month Review)

In April 2025, Council Member Robinson proposed a code amendment recommending the streamlining of processes, reduced financial barriers, and expansion of permissible locations for brew pubs within Sandy City. During the discussion, the Council requested that Council Staff, in coordination with the Sandy Police Department, obtain and analyze police call data related to establishments serving alcohol.

In response, the Sandy Police Department compiled 12 months of call-for-service data for nine locations: six within Sandy City and three located in nearby cities. These locations included a mix of full-service restaurants and bar establishments. Because there are currently no brew pubs within Sandy City, data was collected from various alcohol service establishments in Sandy and in neighboring cities.

Key Findings:

- Across all nine establishments, only three alcohol-related calls for service were reported over the 12-month period.
- There was no clear evidence of increased calls for service at any specific type of alcohol-serving establishment.
- The data does not indicate a higher incidence of police activity at establishments that serve alcohol.

Police Department Summary:

Chief Greg Severson provided the following interpretation:

"Per a request from the City Council Office, the Police Department pulled call data from restaurants located inside Sandy City pertaining to alcohol-related calls for service. As there are no brew pubs currently inside Sandy City, the Police Department pulled

alcohol-related call data from local brew pubs outside the city. The data indicated no substantial increase in alcohol-related calls for service at brew pubs versus restaurants."

The raw data reviewed by staff is attached to this memo for your reference.
