

Thank you for your interest in the Utah Wellbeing Project Survey, a statewide initiative! This is the Sandy version.

This survey is available in English and Spanish. Please use the box in the upper right-hand corner to select your preferred language. The survey works best on a computer or tablet, but will also work on smartphones.

If you took the Wellbeing Survey in early 2020, please take this survey again now!

The goal of this survey is to better understand the life conditions of people in Utah cities and towns and how different aspects of wellbeing vary from person to person and place to place. Results will be shared with your city's leaders.

We would like to hear from adults (age 18 or over) who are full or part-time residents of **Sandy**. The survey should take about 10 minutes or less. We will not collect any identifying information about you. It may be possible for someone to recognize specifics in the information you share, but reporting is done at the city level (not about individuals). All questions are important to us, but you may decline to answer any questions.

Please encourage others age 18 and over in your household and community to take the survey as well.

Please do not take this survey more than once.

The Utah State University Institutional Review Board has approved this research study (Protocol 9223). If you have any questions about the survey, please contact Dr. Courtney Flint at (435) 797-8635. If you would like to speak with someone about your rights as a participant or talk with someone other than the research staff, the USU IRB Office can be reached at (435) 797-0567 or at irb@usu.edu.

Please continue on to the next page to begin the survey.

Thank you!
Dr. Courtney Flint

Are you a full or part time resident of Sandy?

I am a full-time resident of Sandy

I am a part-time resident of Sandy

No, I am not a resident of Sandy → Skip to Thank you and End of Survey

How long have you been a resident of Sandy?

_____ years
