Dear Ms Anderson - I do not know the details of this proposed amendment, but if it is in any way regarding political signage, (as in, eg, vote for so-and-so for Senate), I hope it will NOT be allowed. But if it is allowed, then at least be sure to impose (and follow through on) a hefty fine for failure to remove the signage promptly. They are eyesores at best.

"The proposed Code Amendment would amend Title 21, Chapter 26, Signage and Outdoor Advertising, Section 8, Temporary Signs, of the Sandy Land Development Code. The purpose of the code amendment is to allow temporary signs on fences on private property in residential zones, where it is currently not permitted."

Thank-you,  
Peggy Brown, Sandy Resident
