Planning Director Brian McCuiston presented the agenda item to the Planning Commission.

Mr. Greg Miles, Applicant, was in attendance from the Waterford School. He spoke in favor of the item on behalf of the school. He presented a concept for the school expansion.

The Chair opened the public hearing.

Mr. Janssen Vanderhooft expressed a concern about whether the new parking will be sufficient to avoid off-site parking. He also questioned about the rules for noise and traffic patterns for vehicle and pedestrian traffic. He also questioned about the potential of the parcels if the annexation is not approved.

The Chair clarified that the question before the Planning Commission was about annexation and that they were not addressing the potential development.

Mr. Miles offered to provide information in response to Mr. Janssen's questions.

Brian McCuiston noted that any modification to the site would require a Conditional Use Permit and public hearing.

Commissioner Ron Mortimer questioned the zoning if the school did not develop the project.

Mr. Steve Van Maren questioned why White City Water would be concerned about the annexation.

Mr. Miles suggested that White City wanted to be the water provider to the lots rather than Sandy City.

Commissioner Cory Shupe questioned whether it made sense to connect to White City Water when the remainder of the school is in the City's water system.

The Chair closed the public hearing.

The Planning Commission discussed how the water issue may be resolved.

A motion was made by Commissioner Joe Baker, seconded by Commissioner Cyndi Sharkey, to forward a positive recommendation to City Council that the

Waterford III Annexation be approved and zoned Professional Office based on the five findings in the staff report.

Further Planning Commission discussion followed.
