To Whom It May Concern,

We are writing this letter on behalf of the Cannell family. We have been patrons of Fratelli Ristorante for the past nine years. We have also been residents of Sandy for the past 13 years and have known and been friends with the Cannell family for 22 years.

We have continued to be loyal customers of the restaurant because of the warm and inviting atmosphere, friendly service, and the quality and variety of food offerings. The Cannell family strives to provide great service and they take meticulous care of the restaurant environment for their customers.

We have watched the area around the Sandy Library develop over the past several years. The proposed site for the new restaurant is ideal for a stand alone building. It will be a well maintained buffer between the existing strip mall and residential area to the east.

The Cannell family has proven both through their careers in public education with the Jordan and Canyons school districts, as well as residents of the community for nearly 40 years, that they care for their community and the citizens who reside in Sandy. This integrity has carried through to the existing restaurant and will undoubtedly continue to the new location.

Instead of just the multitude of fast food offerings in the area, we look forward to having a finer restaurant closer to home.

Sincerely,

Ron and Terri Woolf
2162 Village Point Way
Sandy, UT 84093
