Mayor for the Day Contest – June 14, 2017

By Elyse Walker

I think the schools in Sandy City are great. I have siblings that attend one of the high schools, middle school and elementary schools and they help to educate us and give us a future. The teachers and staff help us prepare for jobs and the future.

One of my concerns is that I think people need to have a greater respect for Sandy City, the residents and our buildings. I would like to see no vandalism on signs and walls. Additionally, I love the parks in Sandy and don't' like when bad words are written on the playgrounds. I think our city would look better without them and it costs money to remove. Also as Mayor for a Day I would like to see less kids bullied. I don't like seeing my friends or neighbors hurt by mean words or actions. I am on the Student Council at my elementary school next year and suggested that the school has an Assembly at the beginning of the year talking about not allowing any bullying. I'd like to see the Mayor's office support this and the Mayor talk at these assemblies. He could teach kids and adults about how to be better citizens.
