PLAT				<p>* Nate Ship (Council Nov 17 1:36:27) "these commitments were made on the front end of this project... we stand by them in our proposal to you tonight. We are supportive of our plan but request that as we move forward if you're willing to approve us tonight that we make sure that we do this in a way that there will be no question that these commitments will be obligations, and that through this process there is no chance that this will ever be up for question as to weather or not we can or cannot do this. We want to obligate ourselves to do this." - next slide overview plan on June 4th building layout (early), then go on to talk about planning commission feedback and community meetings with neighbors that were outside of this immediate neighborhood, and we tried to take that feedback and pull it in again.</p> <p>*Nate Ship (Council Nov 17 2:02:10) "our proposal to you tonight, is for the PUD10 as it's laid out now, with all the commitments we have made all along the way, to our neighbors and to you and the rest of the public."</p> <p>*October 13 CC (2:31:46) - Nate said regarding the same plan under PUD12 "...however we are restricting that to only 96 units. And that those units would have to match the layout in this picture here."</p> <p>*DAI closed the PC nov 5th with the following: (50:13) "creating a very specific plan, with very specific units placed in specific areas for specific reasons in a manner that will raise and complete a</p>

	1) Planning commission meeting nov 5DAI stated (42:03): "the HOA will back up that grow plot with good landscaping and maintenance if for some reason people didn't elect to garden, we would maintain it through the HOA"					
	Further at CC nov 17 (1:51:48) Joe Salisbury in talking about the gardens not becoming eyesores - "One concern that has come a couple times is what if it becomes a really big weed patch? We'll have a really organized and active HOA that won't let that happen. There will be fees that will be assessed if people don't manage or maintain their boxes. And if it becomes a rampant issue we already have a backup plan that we will, as the HOA we will take over the community gardens and just plant flowers in them"	City Council/ 11/17/2020 CC (1:51:48); I	✓	unknown	unknown	?
